

COST ACROSS TASKS 6 AND 12

Åke Arvidsson

Technical Expert, Ericsson (BUSS/PDU Traffic Optimisation).

Professor, University of Kristianstad (Department of Computer Science).

TASKS

- › Task 6: New transport protocols.
- › Task 12: Effective monitoring of encrypted “grey” traffic.

Tasks are based on my presentations in Karlskrona.
The topic of task 12 was just one of the issues in task 6.
Decisions taken in Cyprus where I could not attend.
I suggest task 12 is cancelled/deleted or whatever...

TASK 6: NEW TRANSPORT PROTOCOLS

- › Area:
 - › I will present some challenges tomorrow,
- › General:
 - Little interest in the community.
- › Technical:
 - Work on congestion control with proxy (tomorrow).
- › Other:
 - Joint STSM with Karlstad University.
 - Eneko Atxutegi Narbona from University of the Basque Country.
