

## Work And Budget Plan

IC1304 Grant Agreement Period 2

02/12/2014 to 31/12/2015

### Section I: Action Profile

#### Action General Information

|                   |  |                        |                        |
|-------------------|--|------------------------|------------------------|
| Action Code       | IC1304   | MC Chair               | Prof Rob van der Mei   |
| Action Title      | IC1304 - Autonomous Control for a Reliable Internet of Services (ACROSS) |                        |                        |
| MOU               | 024/13   | Draft MOU              | oc-2012-2-13738        |
| CSO Approval Date | 2013-05-16   |                        |                        |
| Action Start Date | 2013-11-14   | Action End Date        | 2017-11-13             |
| Science Officer   | Dr Ralph Stuebner  | Administrative Officer | Mr Matthias Kahlenborn |

#### Participating COST Member Countries and Cooperating State:

|  | ITC           |        | Non-ITC           |        | Total |

## International cooperation

|   | NNC | IPC | Specific Organisation | Total |
|---|-----|-----|-----------------------|-------|
| Number of entities formally approved to join Action | 0   | 0   | 0                     | 0     |
| Number of countries                                 | 0   | 0   | 0                     | 0     |

## Working Groups

|     | WG Title  | WG Leader          | Number of Members |
|-----|---|--------------------|-------------------|
| WG1 | Autonomous management and real-time control             | Dr Philipp Leitner | 40                |
| WG2 | Methods and tools for monitoring and service prediction | Dr Yoram Haddad    | 40                |
| WG3 | Smart pricing and competition in many-domain systems    | Dr Peter B. Key    | 8                 |

## Section II: MoU objectives and Grant Agreement Period Goals and Activities

### Action Objectives from MoU

|                       |  |
|-----------------------|--|
| Aim/primary Objective | The main objective of the Action is to create a European network of experts, from both academia and industry, aiming at the development of autonomous control methods for reliable and quality-aware Internet of Services.   |
| Secondary objectives  | <ul style="list-style-type: none"> <li>• Establishment of a platform to fuel and coordinate research collaborations throughout Europe in the field of reliability, robustness and quality-aware management and control of Internet-based service infrastructures to overcome the current knowledge segmentation.</li> <li>• Development of algorithms for autonomous decision and control regarding service composition, resource allocation and user demand in the IoS, in order to ensure service quality and reliability.</li> <li>• Development of scalable methods and tools for system monitoring &amp; analysis to support autonomous decision and control.</li> <li>• Development of rules and smart pricing schemes in multi-domain, highly competitive service environments (possibly based on game theory and self-organization principles) providing proper incentives to establish an economically viable ecosystem.</li> </ul> |

### Grant Agreement Period

|                                   |            |                                 |            |
|-----------------------------------|------------|---------------------------------|------------|
| Grant Agreement Period Start Date | 02/12/2014 | Grant Agreement Period End Date | 31/12/2015 |
|-----------------------------------|------------|---------------------------------|------------|

### Grant Agreement Period Goals

| Number | Grant Agreement Period Goal  | MoU Objective(s) it relates to  |
|--------|--|---|
| GAPG 1 | Continue bringing together researchers and industry, and explore new topics            | Aim/Primary objective<br>Secondary objective 1  |
| GAPG 2 | Expand the IC1304 community, particularly to include more involvement from industry    | Aim/Primary objective<br>Secondary objective 1  |
| GAPG 3 | Improve existing methods for autonomous control for the IoS                            | Secondary objective 2   |
| GAPG 4 | Improve existing methods for QoS/QoE monitoring and prediction in the IoS              | Secondary objective 3   |
| GAPG 5 | Improve existing models and methods for pricing in the IoS                             | Secondary objective 4   |
| GAPG 6 | Compile a repository of publications   | Aim/Primary objective<br>Secondary objective 1<br>Secondary objective 2   |
| GAPG 7 | Train young researcher in broad aspects of quality control and reliability in the IoS  | Aim/Primary objective<br>Secondary objective 1<br>Secondary objective 2<br>Secondary objective 3<br>Secondary objective 4 |
| GAPG 8 | Stimulate further involvement of female researchers in order to improve gender balance | Aim/Primary objective<br>Secondary objective 1  |
| GAPG 9 | Stimulate further involvement of early-stage researchers                               | Aim/Primary objective<br>Secondary objective 1  |

## Section IV: Work and Budget Plan for the Grant Agreement Period

### Work and Budget Plan Summary

| A. COST Networking Tools                                | EUR               |
|---|-------------------|
| (1) Meetings  | 92,985.00         |
| (2) Training Schools                                    | 27,600.00         |
| (3) STSMs   | 25,000.00         |
| (4) Dissemination                                       | 1,500.00          |
| (5) Other Expenses Related to Scientific Activities     | 500.00            |
| <b>B. Total Science Expenditure (sum of (1) to (5))</b> | <b>147,585.00</b> |
| <b>C. FSAC (max. of 15% of B)</b>                       | <b>22,137.75</b>  |
| <b>D. Total Expenditure (B+C)</b>                       | <b>169,722.75</b> |

## Meetings

### Overview

| Meeting Title  | Meeting Type   | Dates                   | Location           | ITC   | Total Cost(EUR) |
|--|--|-------------------------|--------------------|-------|-----------------|
| 3rd MC + WG1-3 meeting + 1st Open Workshop on "Autonomous Control in the Internet of Services" | Management Committee Meeting, Core Group Meeting, Working Group Meeting, Workshops/Conferences | 15/04/2015 - 17/04/2015 | Würzburg (Germany) | No    | 43,565.00       |
| 2nd Open workshop on "Autonomous Control for the IoS"  | Workshops/Conferences  | 02/07/2015 - 02/07/2015 | Paris (France)     | No    | 6,780.00        |
| 3rd Open Workshop on "Autonomous Control in the Internet of Services"                          | Workshops/Conferences  | 11/09/2015 - 11/09/2015 | Ghent (Belgium)    | No    | 5,400.00        |
| 4th MC + WG1-3 meeting   | Management Committee Meeting, Core Group Meeting, Working Group Meeting                        | 08/10/2015 - 09/10/2015 | Lovran (Croatia)   | Yes   | 37,240.00       |
|  |  |                         |                    | Total | 92,985.00       |

### Details

|                                      |   |
|--------------------------------------|---|
| Meeting Type                         | Management Committee Meeting, Core Group Meeting, Working Group Meeting, Workshops/Conferences  |
| Title of the Meeting                 | 3rd MC + WG1-3 meeting + 1st Open Workshop on "Autonomous Control in the Internet of Services"  |
| Grant Period Goal(s) it will address | Continue bringing together researchers and industry, and explore new topics, Expand the IC1304 community, particularly to include more involvement from industry, Improve existing methods for autonomous control for the IoS, Improve existing methods for QoS/QoE monitoring and prediction in the IoS, Improve existing models and methods for pricing in the IoS, Train young researcher in broad aspects of quality control and reliability in the IoS, Stimulate further involvement of female researchers in order to improve gender balance, Stimulate further involvement of early-stage researchers |
| Description                          | During the 3rd MC-meeting, the Summer School will be evaluated, and the administrative and organization matters will be discussed. During the WG1-3 meeting, progress updates will be given for each of the task forces. Moreover, IBM researchers have been invited to give a half-day lecture about IBM's view of quality control in the IoS. For the workshop, several speakers from outside will  |

|   |  |   |                     |
|---|--|---|---------------------|
|   | be invited to give presentations, particularly with expertise in network virtualization and SDN. Moreover, talks will be given by ACROSS participants. This meeting is co-located to the ACROSS Summer School on network virtualization and software-defined networks, and makes use of the presence of the participants (mainly ESRs) of the Summer School. Since the workshop is also co-located to the 3rd MC and WG1-3 meetings (see above), it will benefit from the presence of other ACROSS participants. |   |                     |
| Output(s)                                   | Tangible output: 1. 1st scientific progress report 2. Presentation slides made available via the public Website 3. Publication repository up and running   |   |                     |
| Location                                    | Würzburg (Germany)   | ITC   | No                  |
| Start Date                                  | 2015-04-15 09:00:00  | End Date  | 2015-04-17 18:00:00 |
| Duration                                    | 3 days   |   |                     |
| Number of expected total participants       | 45   | Number of participants to be reimbursed from COST funds | 45                  |
| Average reimbursement(per participant)(EUR) | 857.00   | Total Reimbursement costs (EUR)                         | 38,565.00           |
| Local Organiser Support (EUR)               | 5,000.00   |   |                     |
| Total cost of the meeting (EUR)             | 43,565.00  |   |                     |

|                                       |  |   |                     |
|---------------------------------------|--|---|---------------------|
| Meeting Type                          | Workshops/Conferences  |   |                     |
| Title of the Meeting                  | 2nd Open workshop on "Autonomous Control for the IoS"  |   |                     |
| Grant Period Goal(s) it will address  | Continue bringing together researchers and industry, and explore new topics,Expand the IC1304 community, particularly to include more involvement from industry,Improve existing methods for autonomous control for the IoS,Improve existing methods for QoS/QoE monitoring and prediction in the IoS,Improve existing models and methods for pricing in the IoS,Train young researcher in broad aspects of quality control and reliability in the IoS,Stimulate further involvement of female researchers in order to improve gender balance,Stimulate further involvement of early-stage researchers |   |                     |
| Description                           | This workshop is co-located to the EUCNC-meeting. Website is "http://www.eucnc.eu/". We will invite 1 or 2 subject-matter experts to give presentations about their work on quality control in the IoS. In addition, ACROSS participants will be asked to give presentations during the workshop. The workshop will be open to people from outside. Due to budget limitations, only presenters will be reimbursed.   |   |                     |
| Output(s)                             | 1. Presentation slides made available via public Website   |   |                     |
| Location                              | Paris (France)   | ITC   | No                  |
| Start Date                            | 2015-07-02 08:00:00  | End Date  | 2015-07-02 18:00:00 |
| Duration                              | 1 day  |   |                     |
| Number of expected total participants | 25   | Number of participants to be reimbursed from COST funds | 8                   |
|                                       |  |   |                     |

|   |          |                                 |          |
|---|----------|---------------------------------|----------|
| Average reimbursement(per participant)(EUR) | 660.00   | Total Reimbursement costs (EUR) | 5,280.00 |
| Local Organiser Support (EUR)               | 1,500.00 |                                 |          |
| Total cost of the meeting (EUR)             | 6,780.00 |                                 |          |

|   |  |   |                     |
|---|--|---|---------------------|
| Meeting Type                                | Workshops/Conferences  |   |                     |
| Title of the Meeting                        | 3rd Open Workshop on “Autonomous Control in the Internet of Services”  |   |                     |
| Grant Period Goal(s) it will address        | Continue bringing together researchers and industry, and explore new topics,Expand the IC1304 community, particularly to include more involvement from industry,Improve existing methods for autonomous control for the IoS,Improve existing methods for QoS/QoE monitoring and prediction in the IoS,Improve existing models and methods for pricing in the IoS   |   |                     |
| Description                                 | The workshop is co-located to the 27th International Teletraffic Congress (ITC27), a well-known international conference on performance modeling and engineering of communication networks. The Website of ITC 27 is "" <a href="http://www.itc27.org/call-for-papers/">http://www.itc27.org/call-for-papers/</a> . We plan to invite 1 or 2 speakers from outside, with a specific expertise in performance engineering aspects. Moreover, ACROSS participants will be asked to give presentations about their work to disseminate the research results (preferably ESRs and female researchers). Coverage of expenses will only be provided to speakers at the workshop. |   |                     |
| Output(s)                                   | Tangible output: Presentation slides available via the public Website  |   |                     |
| Location                                    | Ghent (Belgium)  | ITC   | No                  |
| Start Date                                  | 2015-09-11 09:00:00  | End Date  | 2015-09-11 18:00:00 |
| Duration                                    | 1 day  |   |                     |

| Title of the Training School         | Training school "Network Function Virtualization meets Big Data: Architecture and Performance Evaluation"   |  |                     |
| Grant Period Goal(s) it will address | Continue bringing together researchers and industry, and explore new topics, Expand the IC1304 community, particularly to include more involvement from industry, Improve existing methods for autonomous control for the IoS, Improve existing methods for QoS/QoE monitoring and prediction in the IoS, Improve existing models and methods for pricing in the IoS, Train young researcher in broad aspects of quality control and reliability in the IoS, Stimulate further involvement of female researchers in order to improve gender balance, Stimulate further involvement of early-stage researchers   |  |                     |
| Description                          | This training school is aimed at acquiring and sharing knowledge about Network Virtualization and Software-Defined Networks, which are among the key topics in the context of the Internet of Services. For the Training School several speakers from outside are invited to give lectures, and several lectures will be taught by the ACROSS participants (negotiations are ongoing). The training school will be open to Master and Ph.D. students, as well as other ACROSS participants. The Website is " <a href="http://summerschool2015.informatik.uni-wuerzburg.de">http://summerschool2015.informatik.uni-wuerzburg.de</a> ". The event is co-located to several other ACROSS-activities (MC, 1st Open workshop) that will be held right after the Training School. In this way, the TS may benefit from the presence of ACROSS-participants. |  |                     |
| Output(s)                            | Tangible output: Course slides made available via the public Website.   |  |                     |
| Location                             | Würzburg (Germany)  | ITC                                    | No                  |
| Start Date                           | 2015-04-08 00:00:00   | End Date                               | 2015-04-14 00:00:00 |
| Number of trainers                   | 8   | Number of trainees                     | 50                  |
| Number of trainers to be reimbursed  | 5   | Number of trainees to be reimbursed    | 28                  |
| Average trainer Reimbursement(EUR)   | 1,100.00  | Average reimbursement per trainee(EUR) | 700.00              |
| Total trainer Reimbursement(EUR)     | 5,500.00  | Total trainee Grant(EUR)               | 19,600.00           |
| Local Organiser Support (EUR)        | 2,500.00  |  |                     |
| Total cost of the Training           | 27,600.00   |  |                     |

## STSM

|                            |           |
|----------------------------|-----------|
| Number                     | 10        |
| Average cost per STSM(EUR) | 2,500.00  |
| Total cost(EUR)            | 25,000.00 |

|   |
|---|
| How will the STSMs contribute to the achievement of the Grant Period Goals?   |
| Expand the IC1304 community, particularly to include more involvement from industry, Train young researcher in broad aspects of quality control and reliability in the IoS, Stimulate further involvement of early-stage researchers<br>Short Term Scientific Missions<br>The concrete goal of the 10 planned STSM's are to stimulate scientific collaborations between participating countries. The STSM's are also aimed at realizing publications and to disseminate the scientific results to the larger community. |

## Disseminations

| Title                       | Type           | Publisher/provider | Expected date of Release | Cost(EUR) |
|-----------------------------|----------------|--------------------|--------------------------|-----------|
| Expansion of action webpage | Action Website | CWI                | 01/04/2015               | 1,500.00  |

|  |          |
|--|----------|
| How will this Dissemination contribute to the achievement of the Grant Period Goals?   |          |
| Continue bringing together researchers and industry, and explore new topics, Expand the IC1304 community, particularly to include more involvement from industry |          |
| Total Disseminations   | 1,500.00 |
