

Workshop Program Friday

- 08.30-09.00:** Towards Multi-layer Performance Management in Cloud Networking and NFV Infrastructures (*Kurt Tutschku*)
- 09.00-09.30:** Managed Dependability in Interacting Systems (*Poul Heegaard*)
- 09.30-10.00:** Fault-Tolerant Application Placement in Heterogeneous Cloud Environments (*Steven Latre*)
- 10.30-11.00:** Schengen Routing: A Compliance Analysis (*Christos Tsiraras*)
- 11.00-11.30:** Ongoing Research Activities at Uni-ZG: QoE-centric Management in SDNs (*Lea Skorin-Kapov and Ognjen Dobrijevic*)
- 11.30-12.00:** Energy Efficient Control of Virtual Machine Consolidation under Uncertain Input Parameters for the Cloud (*Andreas Kessler*)
- 13.00-13.30:** On the Cost/Efficacy and Cost/Effectiveness Ratios in telecommunication service systems with QoS guarantees (*Stoyan Poryazov and Emiliya Saranova*)
- 13.30-14.00:** Lightweight / Green Protocols for IoT services (*Denis Trcek*)
- 14.30-15.00:** Traffic Management for Federations of Clouds (*Wojtek Burakowski*)
