

ACPROSS 2017 workshop

November 9th, 2017, Amsterdam

Workshop info

- International Workshop on Autonomous Control for Performance and Reliability Trade-offs in Internet of Services (**ACPROSS 2017**)
- Colocated with ICPE 2017
- Held on April 22 2017, in L'Aquila (Italy)
- Organizers: Valeria Cardellini, Francesco Lo Presti, Peter Pocta
- Proceedings published by ACM in ICPE Companion volume

Workshop report

- Average number of attendees: 19
- Fruitful and well-received event
 - Keynote talk by Hans van den Berg on ACROSS
 - Invited talk by Mauro Caporuscio on fully decentralized self-adaptive systems
 - 5 presented papers with well-participated discussion
 - 2 papers on container deployment and performance
 - 1 paper on cost of Cloud services for IoT
 - 1 paper on topological analysis of time series failure data
 - 1 paper on using WiFi radiomaps to predict network disconnection
